

Clarence Lin

Senior Backend Developer / LLM & Infrastructure Engineer
me@clarence.tw | clarence.tw | blog.clarence.tw | GitHub | LinkedIn

Profile

Senior engineer working across backend systems, AI applications, DevOps, and infrastructure. I build delivery systems that can be deployed, observed, and maintained in production, with hands-on experience in Node.js, Python, Go, AWS CDK, GitLab CI/CD, Proxmox, and LLM and speech AI. I am also the author of AWS CDK 完全學習手冊 and publish practical knowledge through technical writing and open-source projects.

Core Expertise

Backend Node.js, Go, Python, PHP, API design, background jobs	AI & Speech LLM applications, OpenAI API, Ollama, Kaldi, Whisper, GPU runtimes
Cloud / IaC AWS, AWS CDK, GCP, Azure, infrastructure as code	Delivery & Platforms GitLab CI/CD, GitHub Actions, Docker, Linux, Proxmox VE / PBS, Harbor
Data PostgreSQL, MySQL, Redis	Networking VLAN, VPN, SD-WAN, firewalls, wired and wireless networks

Experience

Senior Backend Developer / LLM Engineer

BRONCI Technology Inc. | Nov 2020 - Present

- Design and build backend services, APIs, background jobs, data-processing workflows, and third-party integrations.
- Integrate OpenAI API, Ollama, Kaldi, Whisper, and GPU runtimes into maintainable LLM and speech AI workflows.
- Build repeatable cloud architecture with AWS CDK and IaC; operate Linux, Proxmox VE / PBS, Harbor, and monitoring platforms.
- Maintain GitLab CI/CD, GitHub Actions, automated tests, and container delivery; plan VLAN, VPN, firewall, Wi-Fi, and SD-WAN environments.

Full-time Research Assistant

National Taipei University of Technology, Taipei Tech | Nov 2015 - Nov 2020

- Developed cloud system software and backend and network applications with Node.js, Go, C/C++, PostgreSQL, and Docker.

Part-time Staff, Computer and Information Network Center

National Taipei University of Technology, Taipei Tech | Jun 2012 - Jun 2017

- Handled network troubleshooting and computer-system maintenance.

Selected Public Work

Author, AWS CDK 完全學習手冊 2021

Published by DrMaster Press; based on the 12th iThome Ironman DevOps champion series, “用 CDK 定義 AWS 架構.”

AWS Training Instructor, 5xRuby 2022

Delivered 12 hours of cloud deployment instruction and hands-on practice.

Speaker, AWS User Group Taiwan Dec 2021

Presented an introductory AWS CDK session about one-command front-end deployment.

Author, BNext From 2022

Published articles on backend engineering, DevOps, Linux, cloud architecture, and security.

Certifications & Credentials

Taiwan National Technician Certificates IT Systems: Earned Class B Computer Hardware Maintenance and Class C credentials in Hardware Maintenance, Software Applications, Software Design, Web Design, and Network Installation, demonstrating practical systems, software, web, and networking skills.

Fortinet NSE 1 / NSE 2 Network Security: Earned NSE 1 and NSE 2 credentials, demonstrating foundational knowledge of cyberthreats, security concepts, and Fortinet security solutions.

IC3 Digital Literacy Components Digital Literacy: Earned Computing Fundamentals, Key Applications, and Living Online credentials, demonstrating digital literacy across computer fundamentals, productivity tools, online collaboration, and safe Internet use.

Microsoft Office 2007 Master Office Productivity: Earned Microsoft Office 2007 Master by passing all four required MCAS certification exams.

- Word 2007 (77-601) - document formatting, styles, and layout
- Excel 2007 (77-602) - formulas, data analysis, charts, and workbook management
- PowerPoint 2007 (77-603) - presentation structure, visual design, and delivery
- Outlook 2007 (77-604) - email, calendars, contacts, and task management

Adobe Certified Associate CS3 Digital Content: Earned three Adobe Certified Associate CS3 credentials, demonstrating web, interactive-media, and visual-content production skills.

- Dreamweaver CS3 - web authoring, HTML/CSS, and site management
- Flash CS3 - animation, interactive media, and publishing
- Photoshop CS3 Extended - image editing, visual design, and output

TQC Web & Mobile: Earned Practical, Advanced, and Professional credentials in Internet and Mobile Communication, HTML 4.01, and Windows Mobile 6 Device OS Applications, demonstrating networking, web-markup, and mobile-device skills.

Selected Open Source

clarence.tw Current

A multilingual Hugo portfolio and technical knowledge site.

cdk-wordpress 2020 - 2024

An AWS CDK construct library for repeatable WordPress deployment as infrastructure code.

node-crypto-ecb 2022

A Node.js AES ECB library for compatibility-driven encryption and decryption use cases.

AWS CDK 2021

Public contributions to the AWS Cloud Development Kit project.

Education

M.S., Electrical Engineering

National Taipei University of Technology, Taipei Tech | 2015 - 2017

B.S.

National Taipei University of Technology, Taipei Tech | 2011 - 2015

Higher Vocational, Information

Xiehe Youde Senior High School | 2008 - 2011

Community

SITCON 2014 - 2018, SITCON Summer Camp 2014 - 2015, COSCUP 2014, and HITCON 2014.
